

An abstract graphic design on a dark blue background. It features a large, solid light blue trapezoid on the left. To its right is a smaller rectangle with a diagonal orange and black striped pattern. Further right are two faint, light blue outlined trapezoids that appear to be receding into the distance, creating a sense of depth and perspective.

Licence Applicable to the Article:

Creative Commons license CC BY. This license allows readers to copy, distribute and transmit the Article as long as it is attributed back to the Author. Authors are permitted to alter, transform or build upon the Article, and to use the Article for commercial purposes. Please read the full license for further details at: <https://creativecommons.org/licenses/by/4.0/>

Subject to editorial acceptance of the Article, it will be published under the Creative Commons license shown above.

1. Grant of Rights

(a) For grant and valuable consideration, the Author hereby grants to the Licensor the perpetual, non-exclusive, irrevocable, world-wide, assignable, sub-licensable and exclusive right to publish, reproduce, copy, distribute, communicate, display publicly, sell, rent and/or otherwise make available the Article identified above, including any supplementary information and graphics elements (herein as "Illustrations, charts, tables, images" (the "Article") in any language, in any format or medium in any and all forms and/or made or expressed (including without limitation in connection with any and all end-user devices), whether now known or developed in the future. Without limitation, the above grant includes: (i) the right to edit, alter, adapt, adjust and prepare derivative works; (ii) all advertising and marketing rights including without limitation in relation to social media; (iii) rights for any training, educational and/or instructional purposes; (iv) the right to add and/or remove links or combinations with other materials; and (v) the right to create, use and/or license and/or sublicense content data or metadata of any kind in relation to the Article (including abstracts, and supplementary material). The above rights are granted in relation to the Article as a whole or any part and with or in relation to any other works.

(b) Without limiting the rights granted above, Licensor is granted the right to use the Article for the purposes of analysis, testing, and development of publishing, and non-published products, services, products, methods, and services, in connection with the Article with intent that parties to do the same, and to retain and reuse the Article and any associated correspondence/efforts to maintain the historical record, and to further research proprietary investigations. The grant of rights set forth in this clause (b) is irrevocable.

(c) The Licensor will have right, but not the obligation, to exercise any or all of the rights granted herein. If the Licensor elects not to publish the Article for any reason, all publishing rights under this Agreement as set forth in clause 1.01 above will revert to the Author.

2. Copyright

Ownership of copyright in the Article will be retained in the name of the Author. When reproducing the Article or extracts from it, the Author will acknowledge and reference first publication in the Journal.

3. Use of Article Versions

(a) For purposes of this Agreement, (i) references to the "Article" include all versions of the Article (i) "Submitted Manuscript" means the version of the Article as first submitted by the Author; (ii) "Accepted Manuscript" means the version of the Article accepted for publication, but prior to copy editing and typesetting; and (iii) "Version of Record" means the version of the Article published by the Licensor, after copy editing and typesetting. Rights in all versions of the Manuscript are granted on a non-exclusive basis.

By ticking this box you are agreeing to the content in this publishing agreement, and are legally bound to it.

I agree and submit

You will receive a copy of this document by email after you agree and submit.
